Mix and knead dough ingredients by hand, mixer, bread machine, or food processor until smooth and elastic. Place in a lightly greased bowl, turn to coat, cover, and let rise 60 to 90 minutes, until puffy.

Place in lightly greased bowl. Cover and let rise 60 to 90 minutes, until quite puffy, though not necessarily doubled in size.

Gently deflate and shape into 9" log. Place in lightly greased 9" x 5" or 10" x 5" loaf pan. Cover and let rise 60 to 90 minutes, until crowned 1" to 1 1/2" over rim of pan.

Bake in preheated 350°F oven for 20 minutes. Tent lightly with aluminum foil, and bake for an additional 15 to 20 minutes, until golden brown. A digital thermometer inserted into center will read 195°F to 200°F.

Remove from pan and allow to cool completely before slicing.
